Lygari™ is a bluffing card game for 3 to 6 players, where each player is one of the Einherjar, the spirits of great warriors in Valhalla, boasting about their quests in their former lives. But not all claims are true, and it is up to each player to know when to call another player Lygari: a liar! Players tell stories of their conquests until the mead runs out, and the player with the least amount of cards left in their hand is the winner.

**Key Selling Points**
