**Game Summary**

“Listit is a casual card game that brings hilarious discussions as you uncover your friends’ prejudices and weird associations. With more than 500 witty, weird, and sometimes controversial topics answered in lists of five, it’s designed to reveal the true nature of the friends you play with. The twist? The only correct answers are those shared with other players. Prepare for a fast-paced game which takes minutes to learn but will keep you going for hours and hours! We promise plenty of “are you kidding me?” and “why didn’t I think of that?” moments.
